	CF3400-RFM	CT Canister Assy with Midplate	0.010" - 0.013"	0.010" - 0.013"

Engineered for high-performance water treatment, the Friesian Cartridge Tank Canister delivers reliable filtration and long-term durability with minimal maintenance. Its precision-engineered slot sizes (0.010"-0.013") ensure consistent flow and effective contaminant reduction. Available in both a standard version and a mid-plate model for optimized media separation, this canister adapts to a wide range of system configurations—while maintaining high flow rates and low-pressure drop.

Certified to NSF/ANSI 42 and NSF/ANSI/CAN 372.
